Face Frame Balayage Technique

Create lighter pieces of color that accent your overall hair color by doing this easy technique.

One example will showcase a very subtle Brown-Blonde look, and the other is when you want to look more daring, resulting in Baby Pink.

Creating the Balayage

Step 1:

Use One 'n Only™ Argan Oil Powder Lightener for all off-scalp lightening.

- Mix lightener with One 'n Only™ Argan Oil 20 volume Cream Developer in a bowl until a creamy consistency is achieved.
- Take a comb and dip it into the lightener. Remove excess.
- Begin on the area of the head where you want to see lightness.
- Apply the lightener in a downward direction, down the strand accentuating the frame of the face.
- Continue until all areas are complete.
- Process until the lightener reaches a yellow-gold stage.
- Shampoo, condition and dry the hair completely.
