Summertime Tips

to Keep Your Hair Healthy

Summer is a time when your hair can take a beating from the sun, ocean or swimming pools! Take some time to give back to your hair by keeping it healthy and protected.

Try: One 'n Only™ Argan Oil Coconut Shampoo & Conditioner

Technique: One 'n Only™ Argan Oil Coconut Shampoo &

Conditioner are sulfate- and paraben-free formulas, gentle enough to

use daily to hydrate and repair damaged hair. Don't be afraid to shampoo more than once. If you wash your hair a few times a week, it is recommended to do a quick shampoo first to loosen buildup on the hair, then go in and really scrub a second time.

Before rinsing out your conditioner, it is recommended that you brush through hair with a paddle brush to help detangle, which will help prevent hair breakage and damage.

Use: One 'n Only™ Argan Oil Coconut Oil Treatment

Technique: One 'n Only™ Argan Oil Coconut Oil Treatment is amazing! There are two ways this product can be used. First, use on damp hair. Apply a dime-size amount to the palm of your hand. Work it into towel-dried hair through the mid-lengths and ends, then style to desired look.

Second, use on dry hair. Apply a dime-size amount to the palm of your hand. Apply it to mid-lengths and ends. Do not apply to roots because it can cause hair to look prematurely dirty. Focus on ends. Whether your hair is long, short, coarse or fine, this ultimate styling and finishing product is a must-have to help create beautiful, shiny, healthy-looking hair.

Treat: One 'n Only™ Argan Oil Coconut Mask

Technique: Help repair environmental damage, hydrate, add shine, rebuild strength and restore elasticity by treating your hair with the One 'n Only™ Argan Oil Coconut Treatment Mask. Apply mask evenly through clean, damp hair. Leave on 5–10 minutes, or for a more intense treatment, leave on 30 minutes. Rinse and style.
