Ultimate Blonde

Ramp up your spring style by adding bright blonde tones to your overall hair color.

Blonde hair is fun and exciting and now we can help you create a new favorite look. Use One 'n Only™ Argan Oil Hair Color Hi-Lift Blonde series, which delivers the lightest blonde in a single process. These shades are designed to be mixed with 40 volume developer at all times.

Try 11HLA Hi-Lift Ash Blonde for cool, icy results.

* All high-lift blonde colors work best on natural dark blonde hair and lighter.

Ultimate Blonde Technique

Use this application to lighten to an overall blonde in one easy step.

Mix:

1 oz. One 'n Only™ Argan Oil 11HLN Hi-Lift Neutral Blonde or

1 oz. 11HLA Hi-Lift Cool Blonde

2 oz. One 'n Only™ Argan Oil 40 volume Cream Developer

- Begin application by sectioning the hair into 4 sections down the middle, ear to ear.
- Take ¼-inch, fine sections and apply color ½ inch away from the scalp to the ends. Complete all four sections.
- Process for 15 minutes.
- After 15 minutes, go back and apply color to the scalp area in fine, even sections.
- Strand test to check color results.

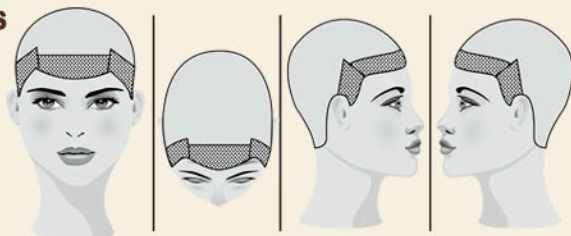

Add Accent Highlights

One 'n Only™ Argan Oil Powder Lightener is a fast-acting, dust-free lightener that can be used for all off-scalp lightening. This lightener is mixed with One 'n Only™ Argan Oil Cream Developer 10, 20, 30, or 40 volume to control the lifting action, while providing superior condition and shine. This lightener works well with foils or highlighting caps.

Add highlights that are fun and exciting to create a new favorite look.

Follow this technique to add accents around the face.

Advanced Accents

Formula

Mix:

1 level scoop of One 'n Only™ Argan Oil Powder Lightener into a nonmetallic bowl

2 oz. One 'n Only™ Argan Oil Cream Developer (10, 20, 30 or 40 volume)

- Begin application by sectioning the hair from ear to ear across the top of the head.
- Begin with the middle part and take ¼-inch section of hair and place in foil. Apply the lightener mixture to the hair and wrap the foil.
- Take a ½-inch subsection in between the next foil. Repeat this process until both sides are complete.
- Process for up to 30 minutes at room temperature.
- Rinse, shampoo and condition.
